

1/23/2025

Dear Employer,

Penta Career Center is committed to excellence in its career technical programs. This year we are again hosting Student Interview Day, and we are inviting you to help make this a success. Please join us as we help students in our career programs sit for real or mock interviews. We are asking our advisory committee members and community business partners to participate in this endeavor to interview our students and provide feedback so that students have the opportunity to practice and be critiqued by real industry/business professionals.

To prepare for this event we will need:

- A commitment from you or one (or more) of your colleagues to interview students from 9:00-1:30 on March 14, 2025 (Arrive and check in starts at 8:15 am)
- Provide us with a job description that a student might be hired for.
- RSVP by completing this [Penta Student Interview Day Company Signup](#) form by February 21, 2025

What you get:

- Opportunity to hire a Penta student
- Opportunity to help students experience what it's like to engage with business and industry as well as help students practice interview strategies by providing feedback
- Opportunity to provide us with your input to make this event even better
- Lunch provided

We hope to hear from you soon and look forward to working with you. We appreciate all you do as you are critical to our students' success. Without you, we would not be able to adequately prepare our students for the world of work!

Respectfully,

A handwritten signature in cursive script that reads "Marshall Wolf".
